Jonasson Takes Us Back To Our First Days In Mac

By DR. J. A. JONASSON
Dean of Administration
Former Mayor of McMinnville

The conflict of standard vs. daylight saving time in Oregon is utterly confusing, but I have a worse problem. My calendar is off at least four months, and maybe six. For most of ten student generations I have seen "New Years" in September. Or is it "Spring" that brings this surge of new life at Linfield each year when old students return and freshmen come for the first time?

It has been so at least as far back as 1922, and probably much longer. When I arrived in McMinnville, on a Red Electric from Portland, the station platform was crowded with students and faculty members there to greet the newcomers. The few who had automobiles used them as free taxis. Because there were no dormitories on the campus, students roomed in private homes in McMinnville, then a conservative community of less than 3,000 people.

New students quickly sense the feeling of partnership and mutual pride so evident between the college and the people of McMinnville. It is a natural relationship, for town and gown have grown to maturity together and each reflects the progressive spirit of the other. During the past few years this community of 8,000 has attracted a host of new industries, including a trailer factory and a woolen mill, and has built a $200,000 swimming pool and a new high school. In 1962 McMinnville won United States Chamber of Commerce recognition for industrial achievement. Traffic on Highway 99W moves through town on an Adams-Baker couplet of one-way streets, and a bypass from the Three Mile Lane to Highway 18 is being built south of the campus.

Progress has been the order of the day, but some of the priceless things that go with college have not changed. The traditional Linfield welcome to college and community has lost none of its warmth. I felt it first when the campus was still undeveloped and Pioneer Hall housed the administrative offices, the library, the commons, and most of the classrooms. It survived the depression years when a student might bring farm produce to help pay for his education, and two wars when the future looked black and manpower was at a low ebb. It is as vital as ever today as students come to a superbly equipped college with high academic standards, modern buildings on landscaped grounds, and fabulous beauty everywhere as fall colors create a wonderland in which to live and work.

"Mac" is still the second home of Linfield students, and the sincerity of its "Hello" soon makes even Californians like the gray days and gentle rains of Oregon.

Homecoming Planned For Oct. 27; Four Classes To Hold Reunions

Football, mums, old friends, good food, intellectual stimulation, crisp weather, beautiful Oregon leaves—yup, it all adds up to HOMECOMING!

The annual Linfield Homecoming for 1962 will be the weekend of October 27. Some alums may want to be on campus Oct. 26 and Oct. 28, but Oct. 27 is the big day for returning to the alma mater.

Major attractions of the day will be the Alumni College from 1:30 to 3 p.m., the Homecoming banquet at 5:45 p.m., the football game with Lewis and Clark at 8:30 p.m., and class reunions, and the traditional alumni "gabfest" in Dillin Hall after the game, the president's tea, and events as yet unscheduled.

The classes which will hold reunions this fall and the class members in charge include the following:

1942 with Bob Balch, Webb Alexander and "Scooter" Rich, 1947 with Bill Tapscott, 1952 with Bob Lunt and Bob Martyn, and 1957 with Dick Blackburn.

Members of these classes may provide the chairmen with addresses, ideas, and suggestions directly or through the Alumni Office.

Student activities for Homecoming will include the annual tug-of-war, the noise parade, the Homecoming ball with its queen, and the festivities on the football field as well as fraternity and sorority displays and social gatherings.

Stadium seats for the Homecoming game with Lewis and Clark will be at a premium. Alumni are advised to make their reservations early.

Mark Oct. 27 on your calendar now!

Kellogg Foundation Awards LC Grant

Linfield College has received a $10,000 grant from the W. K. Kellogg Foundation, Battle Creek, Mich., for the purchase of books to improve the quality of its teacher preparation programs and to increase the effectiveness of its library services in general.

Dr. Harry L. Dillin, Linfield president, pointed out that the books to be purchased with the funds were not exclusively in professional education but would include other academic departments that prepare students for teaching. The funds are to be used for the purchase of books only.

The Foundation said that since the books will serve different curriculums, it is anticipated the acquisition of new books will not only aid teacher education programs but will also heighten the effectiveness of the library services generally.

The Foundation added that such grants constitute another recognition of the importance of the small, private, four-year liberal arts college to American higher education.

Alumni Fund Sets Pace Even With '61

Records show that the 1962 Linfield Alumni Fund, under the chairmanship of Clifford Skinner '28, is progressing at about the same rate as the 1961 Fund. The latest report shows that 462 alumni have contributed $5216 to the Fund.

Alumni may still make contributions to this year's fund. One alumnus made two contributions during the year when extra summer employment added to his income. This is showing real appreciation for a Linfield education.

Why not push the 1962 Fund past last year's mark?
